

REMARKS

The examiner has indicated that applicant's prior submission of new claims 157-163 failed to indicate if these claim read upon the elected invention. As applicant understands the restriction, it is believed that new claims 157-163 do, in fact, read upon the elected Group I claims.

Should the examiner have any questions regarding the content of this response, a telephone call to the undersigned is invited.

Respectfully submitted,

Steven L. Highlander
